

New Table of Contents

1. Observations

a. Defining

i. Historical

ii. Google Search

b. Body Maps

i. Subatomic

a. 4 fundamental forces (compare/see; conclusion and model layer synchronization with 4 fundamental forces; valences, vectors (suits a variety of types; trust being the potential root/ with grief), triadic core (weak and strong, strengthen or decay nucleus; core needs/beliefs) reflexes (electromagnetic), electromagnetic reception and excretion (sending and receiving)

ii. Atomic

a. periodic table of elements; molecular human, molecular planet, molecular sun, molecular evolution table (libb thims)

iii. Molecular

a. glass of water molecules, vs drops of water in the ocean.

iv. Cellular

a. Definition of *Life* (Core Aspects);

1. Response to Stimuli

2. Signaling / Communication

3. Adaptation

4. Homeostasis

5. Growth

6. Organization

7. Metabolism

8. Reproduction & Genetic Inheritance

b. algae, fungus spores, bacteria

v. Human; Multi-Cellular

1. Life Aspects/ Categories (see; 1.b.iv.a.)
 - a. Organization
 - 12 anatomical ("cross-level coherent"systems; 107-108 organs
 2. spectrum of personality (see; conclusion; nsgcpd; styles)
 3. other multicellular on the spectrum of length; bacteriophages, bacteria and virus, nematodes (round worms), water bears,
- vi. Planetary
- vii. Galactic;
 1. stars vs grains of sand
- c. Timeline
 - i. Billion YA
 - ii. 3.3 MYA – Prehistory
 - iii. 3300 BC – Recorded History / Bronze Ages
 - iv. 1200 BC – Iron Ages
 - v. 500 AD – Dark Ages
 - vi. 1500 AD – Early Modern Ages
 - vii. 1700 AD – Late Modern Ages
 - viii. 1945 AD – Contemporary Modern Ages
- d. Plato's Allegory of the Cave (see; 1.c.iv."400BC")
 - i. Fire Pyramid
 - ii. Trophic Pyramid
 - iii. *Life* Definition; (see: 1.b.iv."Cellular")
 - iv. Needs Pyramid
 1. Physiological
 2. Safety/Security
 3. Love and Belonging
 4. Esteem
 5. Self-Actualization

- 6. Self-Transcendence (see: conclusion)
- e. World Historic Declarations
- f. Movements
- 2. Question(s) / Hypothesis
 - a. why aren't declarations being realized?
 - b. why are they killing themselves?
 - c. Why is it hard to do something that's good for us?
 - i. reframing "pain" see: conclusion
 - d.
- 3. Experiments
- 4. Analysis
 - a. Biopsychosocial-spiritual/creative
 - i. **Experimental**; 4 wills; pleasure//live, belong/conform, power/control, meaning/dissonance (demographics, commandments, potential vs actuality (see: conclusion; pages; opium of the people)
 - 1. see; observations; body maps; human/multi-cellular; life aspects; organization; Psychological/Transactional Styles; Attachment, Erickson, Marcia, Parental, Scott Peck Community, Governmental, etc. (include expanding ecological valence identifying each style present at that level and any necessary extra styles)
 - ii. **Statistical**; (see conclusion; pages comp)
 - b. Peer Review
 - i. D Bella
 - ii. D Adams
 - 1. UN 8 Aspects of a Culture of Peace (see: World historic; 1999 Declaration)
 - a. sustainable development, human rights, democratic participation, equality, solidarity, transparency and the free flow of information, education for a culture of peace Security and Public Safety
 - 2. 8 Aspects Culture of War (Adams and the history of the culture of war)
 - a. armies and armaments, external conquest and exploitation, the internal culture of war and economies based on exploitation of workers and the environment, Prisons and penal systems, The military Industrial Complex, The Drugs-for-guns trade, Authoritarian Control, Control of Information, Identification of an "enemy", Education for the

Culture of War and Male domination

3. The Myth
4. Anger; see; "Psychology for Peace Activists" and see; barrett stages of leadership development comparison in; model layers
 - a. Acquisition of Values and Purpose vs. Alienation
 - b. Anger vs Fear
 - c. Action vs Armchair Theorizing
 - d. Affiliation vs Anarchism's and Individualism
 - e. Personal Integration vs Burnout
 - f. World Historic Consciousness vs Sectarianism
5. Enemy Imagery; Cultural or Biological (see: world historic; Seville statement)
6. City Development Through Town Hall (see: conclusion; or pages; bioregion)

III. PA Davis

1. Enemy Imagery Source
 - ii. Deficient Beliefs; (see; conclusion; removing barriers; deficient beliefs 1-5)
 1. Eurocentrism outside of nature
2. pseudo-community stages (see; circle model; conclusion; revisit; barriers – at the ecological "meso" system stage. micro
 - a. pseudo-community, emptying, chaos, authentic/true community
3. Ceremonial Change Process

c. Meta-Analysis

- i. Vectors (Trust)
- ii. Reflex (Grief)
- iii. Inner Valence (Cognitive Development)
- iv. Outer Valence
- v. Core Triangles: Ven Diagram Compilation addition see; conclusion)

1. Beliefs

a. Triads

i. Learned Optimism/Industriousness vs. Helplessness

Pervasiveness, Permanence and Personalization

ii. Beck's Cognitive Triad

Self, Others and Future

2. Needs

a. Communication

i. intrapsychic - Sender, medium, receiver, channel

ii. interpersonal - Aristotle; Speaker, Purpose and Content

iii. Interpersonal - Deviance.

pseudo-mutuality, pseudo-hostility, schism and skew; research of psychiatrists and psychoanalysts Lyman Wynne and Theodore Lidz on communication deviance and roles

b. Organization

i. Intra Group - Pseudo Community

ii. Inter Group – Governmental styles

5. Conclusion

a. Pages Comp:

i. The Modern Holocaust

ii. Justice

iii. NSGCPD

1. Agents of Change/ Spectrum of Duality

a. Saints to Terrorists

I. diggers, environmental movement (see; modern holocaust; environmental murders), civil rights, MLK, Gandhi, Lennon, Buckminster Fuller, Einstein, Frederick Douglass, Mother Teresa, Roosevelt, Jesus, Putin; Hitler, Trump, Jones, Dahmer,

ii. Overinflated aspect of; ownership; mineness (see; The

Projective Consciousness Model of Phenomenal Selfhood)

2. Defense Styles/Mechanisms

- a. Attachment (see model comp and biopsychosocial-spiritual/creative analysis; psycho-social)
- b. Cognitive Dissonance Paradigms
- c. I'm okay your not okay; transactional and transference
- d. blind to betrayal (see conclusion; revisit; barriers; dec. of independence, democide and rj rummel, journalists and environmental activists(modern holocaust))

iv. Addiction

- 1. definitions; applications
- 2. transtheoretical Model of Change, Retraditionalization (see: Conclusion; Retraditionalization; protocols)

v. Drug Culture

vi. Opium of the People

vii. Cannon/Canon/Cannon/QAnon

Genealogy of morality; which staff do you stand on; ankh and staff of life

viii. The Decay (cognitive dissonance; pro life pro choice; sectarian movements need to transcend boundaries for supraordinate goals (ref. roy2000 see; nsgcpd; jones)

ix. Disaster preparation

x. Bioregionalism / The Green Deal/ ALIVE Proposal/ Etc

- 1. post industrialism,

b. Revisit Plato's Cave

i. Relationship between variables (see; use of formal operations in adults and students, and see; types of intelligence (spectrum is not purely rational/mathematical task operations as measured by this)

ii. barriers; individual; (attachment style, grief stages, communication style, transactional, belief style, life scripts, marcia's id, freuds stages, jungs stages, defense mechanisms,), micro-parental style, meso- community stages, macro- governmental style

c. Retraditionalization

- i. PA Davis

- ii. Chinook Resilience

1. Place and Space

2. Protocol

a. Relationship to the Western Scientific Method

b. Whole Brain Functioning (see transcendence; 2 voices

3. Identity

a. Assault; stereotype bias/effect/threat, golem effect and self-fulfilling prophecies. Culture of war media deficient imagery programming and influence,

iii. Crisis, Model, Meaning, Healing, Action, Expansion ("he Poison"; Retraditionalization grounded in science")

d. Transcendence/ realization/ differentiation/ individuation/ expansion/ cognitive shift/ Gaia hypothesis/ the bigger picture / : ven diagram comp, 2 voices; theology for social gospel; hegel's interpersonal and intrapsychic master-slave struggle, cocreative and **win-win** (pa davis), see; optimism and pessimism, narrative, cbt, logotherapy, dialectic and dialogue, the voices we carry, pavlovian hallucinations induced verbal, universal's; language; needs; trust (model comp)
